Congress
Abu Dhabi 2025

made a contribution of **US\$ 31,500.00** to World Land Trust's Carbon Balanced programme to purchase **1,500 Verified Carbon Units (VCUs)** to mitigate the equivalent of:

1,500.00 tonnes of greenhouse gas emissions

associated with the carbon footprint of the IUCN World Conservation Congress 2025, a contribution relating to delegate travel and on-site participation during the period 9-15 October 2025

These funds will be invested in the REDD+ 'Caribbean Guatemala: The Conservation Coast' project, working with our partner FUNDAECO to protect land for wildlife, biodiversity and climate.

Thank you for taking positive action
